

SHABAREESH S GOWDA

+91 6366076160 | shabareesh390@gmail.com | Mangaluru, Karnataka | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

CSE student at MITE (Class of 2029) and Vidyadhan Scholar – one of only 2 selected from Dakshina Kannada district. Completed software engineering virtual experience programs with Walmart, JPMorgan Chase, Deloitte Australia, Quantum and Skyscanner, covering data structures, backend architecture, data engineering, and front-end development. Experienced in Flutter, Firebase, Java, Spring Boot, MERN STACK, REST APIs, and AI-powered application development. Seeking Software Engineering or Flutter Internship opportunities.

TECHNICAL SKILLS

Languages	Java, Dart, C, C++, SQL, JavaScript, HTML, CSS, MongoDB, Node.js, Express.js, React.js
Mobile Dev	Flutter, React Native, Material 3, Provider, Cross-Platform Development
Backend	Spring Boot, Spring Data JPA, Apache Kafka, REST APIs, Firebase Authentication
Database & Cloud	Firebase, Cloud Firestore, Google OAuth, SQLite, H2
AI & ML	Google Gemini API, OpenAI API, Google ML Kit, Anthropic Claude, Codex, Antigravity
Tools	Git, GitHub, Android Studio, VS Code, Selenium
Core CS	Data Structures & Algorithms, OOP, DBMS, Software Engineering, Problem Solving

EXPERIENCE

Codec Technologies India — MERN Stack Developer Intern June 2026 - Jul 2026

Remote

MongoDB · Express.js · React.js · Node.js · JavaScript · Tailwind CSS · Vite · Zustand · React Router · JWT · bcrypt.js · Stripe

- Contributed to the development of a full-stack E-Commerce platform utilizing the MERN stack.
- Focused on creating responsive user interfaces and implementing secure authentication methods.
- Developed RESTful APIs and integrated payment solutions, enhancing the overall functionality of the application.

CodeAlpha — Application Developer Intern

Jul 2026 - Aug 2026

Remote

Flutter · Dart · Firebase · Cloud Firestore · Firebase Auth · Material 3 · Git · GitHub · Provider

- Developed cross-platform mobile applications using Flutter.
- Built real-world apps including FittPulse, Fluenta, and FlashMind.
- Integrated Firebase Authentication and Cloud Firestore.
- Designed responsive Material 3 user interfaces.
- Collaborated using Git and GitHub for version control.

Walmart — Advanced Software Engineer Virtual Intern

Jul 2026

Remote (Forage)

- Implemented a custom power-of-two max heap in Java to optimize a priority queue, managing sift-up/sift-down logic and Big-O tradeoffs.
- Architected a scalable data pipeline using UML and SOLID principles (Strategy pattern) and modeled a normalized (3NF) ERD for product tracking.

JPMorgan Chase — Software Engineer Virtual Intern

Jul 2026

Remote (Forage)

- Engineered a transaction processing backend with Java, Spring Boot, and Apache Kafka; integrated microservices via REST APIs and persisted data with Spring Data JPA and H2.

Deloitte Australia — Technology Analyst Virtual Intern

Jun 2026

Remote (Forage)

- Developed Python scripts to reconcile IIoT telemetry data from two JSON schemas into a unified format (all unit tests passed) and authored a software development proposal for a real-time manufacturing dashboard (Daikibo Industrials).

PROJECTS

TallyMatch — AI Reconciliation Agent

React · Vite · TanStack Router · Python (Serverless) · OpenAI API · pandas · pdfplumber · Vercel

github.com/shabareesh390/Codex_Hackathon

- Built an AI-powered UPI/bank reconciliation agent for the ChatGPT Codex Hackathon 2026 under the "AI for Bharat's Businesses" track, matching bank settlement statements against a business's sales ledger by parsing messy real-world

CSV/PDF exports.

- Applied rule-based logic to auto-match obvious transactions, while an AI agent resolves ambiguous cases by proposing likely matches with confidence scores and plain-language explanations, then self-reviewing its own guesses.

LuxeCart — Full-Stack MERN E-Commerce Platform

MongoDB · Express.js · React.js · Node.js · Tailwind CSS · Vite · Zustand · React Router · Stripe · Cloudinary

github.com/shabareesh390/E-Commerce-MERN

- Developed LuxeCart, a full-stack e-commerce web application during a MERN Stack Developer Internship at Codec Technologies, delivering a complete online shopping experience.
- Implemented secure authentication, product management, order processing, and payment integration for the platform.

FittPulse — AI-Powered Fitness Tracking App

Flutter · Firebase · Firestore · Firebase Auth · Google Gemini API · fl_chart · flutter_animate

github.com/shabareesh390/CodeAlpha_FitnessTrackerApp

- Developed FittPulse, a premium cross-platform fitness tracking app during an Application Developer Internship at CodeAlpha, built with Flutter, Firebase, and Google's Gemini API in a dark-themed, glassmorphic UI.
- Delivered Gemini AI-powered workout and diet recommendations, interactive health-metric dashboards, and secure real-time sync via Firebase Auth and Cloud Firestore, with smooth animations and page transitions.

EvalAI — AI-Powered Exam Evaluation System

Flutter · Firebase · Gemini API · fl_chart

github.com/shabareesh390/EvalAI

- Flutter app that evaluates handwritten answer sheets via Google Gemini AI (OCR + gemini-2.5-flash), auto-generating graded PDF reports with personalized feedback and fl_chart dashboards.
- Integrated Firebase Auth (Google Sign-In) and Cloud Firestore for real-time sync; resolved ML Kit crashes, Gemini API deprecation, and rate-limit retry logic.

ScamShield — Phishing & Synthetic Media Scam Detection

Flutter · Dart · Firebase · OpenAI API

github.com/shabareesh390/ScamShield

- Built for SEBI Securities Market TechSprint — an AI-powered Flutter app detecting phishing messages, suspicious links, and deepfake investment videos targeting retail investors.
- Powered by OpenAI API with real-time community scam reporting via Firebase Firestore; used Provider, Google ML Kit, and Firebase Auth.

CropLens — AI-Powered Agricultural Credit Assessment

React · Vite · Firebase · NDVI Analysis

github.com/shabareesh390/CropLens

- Built for SBI Hackathon @ GFF 2026 — modernizes Kisan Credit Card loan approval by replacing manual field surveys with satellite-based farm boundary analysis on Google Maps.
- Firebase backend computes an NDVI-based crop health score, estimates yield across crops, and projects income via live MSP pricing into a 100-point credit score; Firebase handles officer auth and records.

Firebase Notes App — Real-Time Notes Platform

Flutter · Firestore · Provider · OAuth

github.com/shabareesh390/FireNotes

- Full-stack Flutter app with Google OAuth 2.0 + Email/Password auth, live Firestore CRUD with optimistic UI, Material 3 dark/light theming, and grid/list layout toggle.

EDUCATION

Mangalore Institute of Technology and Engineering (MITE)

Sep 2025 – Dec 2029

B.E. Computer Science Engineering

St Joachim's Composite PU College, Kadaba

Jul 2023 – Mar 2025

PCMCs | 94.50% | Mathematics: 100/100

Shree Gopala Krishna High School, Bilinele

Jun 2020 – Apr 2023

SSLC (Class X) | 94.88%

CERTIFICATIONS & ACHIEVEMENTS

- Vidyadhan Scholarship – One of only 2 scholars from Dakshina Kannada district (merit-cum-means competitive exam)
- Career Essentials in Generative AI – Certified by **Microsoft & LinkedIn Learning**
- Oracle Certified Foundations Associate – **Oracle** Certificate of Recognition
- **CODEX India Hackathon 2026** – National-Level Hackathon Participant
