

SHABAREESH S GOWDA

Puttur, Karnataka | +91 6366076160 | shabareesh390@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science Engineering student at MITE with expertise in Flutter, Java, Spring Boot, Firebase, artificial intelligence, and modern software development. Experienced in designing and developing innovative applications, including an AI-powered exam evaluation system and an intelligent campus navigation platform. Skilled in building scalable backend services, mobile applications, and user-focused solutions. Demonstrates strong problem-solving abilities, software engineering fundamentals, and the capability to independently deliver end-to-end projects. Passionate about leveraging technology to solve real-world challenges and create impactful digital products.

TECHNICAL SKILLS

Languages	Dart, Java, C, C++, JavaScript, SQL
Web	HTML, CSS
Backend Frameworks	Java Spring Boot
Mobile Dev	Flutter (cross-platform), Material 3, Provider (state management)
Backend / DB	Firebase, Cloud Firestore, Authentication, Google Sign-In, Google OAuth, REST API
AI / ML	Google ML Kit, Anthropic Claude
Tools	Git, GitHub, VS Code, Android Studio
CS Fundamentals	Data Structures & Algorithms, OOP, Problem Solving

PROJECTS

Firestore Notes App

Flutter · Dart · Firebase Auth · Cloud Firestore · Provider

GitHub Repository: github.com/shabareesh390/FireNotes

- Built a full-stack cross-platform mobile notes app with real-time sync via Cloud Firestore and secure Email/Password + Google Sign-In authentication.
- Implemented Provider for scalable state management; delivered polished dark/light theme UI deployed on Android.

EvalAI - Smart Evaluation System

Flutter · Dart · Google Gemini API · Firebase · Provider · fl_chart · Google ML Kit · PDF Generation · REST API · Analytics

GitHub Repository: github.com/shabareesh390/EvalAI

- Developed a Flutter-based mobile application that automates grading of handwritten student answer sheets using Google Gemini AI, comparing answers with expected responses, assigning marks, and generating personalized feedback highlighting strengths, weaknesses, and missing concepts.
- Built with Firebase for secure authentication and report storage; included performance analytics dashboards, PDF report generation, and customizable grading settings to streamline evaluation for educators.

EXPERIENCE

Independent Flutter Developer

2025 – Present

Self-Directed · Remote | Open to Internships from 2026

- Independently designed and implemented a full-stack cross-platform notes application using Flutter and Firebase with real-time synchronization through Cloud Firestore.
- Independently developed multimodal AI-based answer analysis, automated mark allocation, and personalized feedback generation including strengths, weaknesses, and missing concepts.
- Participated in WEB DASH 3.0 (MITE · Dept. of CSE, Feb 2026) — a national-level web design hackathon, performing under pressure in a team environment.

Seeking internships: [Flutter Development](#) · [Software Engineering](#) · [AI/ML Learning Roles](#)

EDUCATION

B.E. Computer Science Engineering - 9.15 CGPA

2025 – 2029

Mangalore Institute of Technology and Engineering (MITE), Karnataka

- Focused on DSA, OOP, mobile app development, and engineering fundamentals.

Pre-University (PCMCs) - 94.50%

2023 – 2025

St Joachim's Composite PU College | Physics, Chemistry, Mathematics & Computer Science

CERTIFICATIONS & ACHIEVEMENTS

- WEB DASH 3.0 — Participation Certificate | MITE · Dept. of CSE (IoT & Cyber Security with Blockchain) | February 2026
- Introduction to AI & Machine Learning — Infosys Springboard
- C Programming Certified — foundational proficiency in procedural programming and memory management.
